PROFESSIONAL SUMMARY

Experienced backend software engineer with 5 years of experience in health services environments. Works across Python, FastAPI and PostgreSQL, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | FastAPI | PostgreSQL | Docker | Git | Pytest | Redis | CI/CD | AWS

PROFESSIONAL EXPERIENCE

Backend Software Engineer | Prismwave Services
2024 - Present | Port Harcourt, Nigeria

- Developed and maintained Python-based services for appointment management, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 18% during an internal performance test.
- Introduced repeatable regression checks for appointment management and improved release handovers with reproducible test evidence.
- Measured a 12% improvement in an internal appointment management response-time benchmark after revising data access and request handling.

Software Developer | KoraWorks Digital
2021 - 2024 | Nigeria

- Designed database access patterns for appointment management; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.

SELECTED PROJECTS

Service Reliability Tracker | 2026

- Implemented a Python service layer for capturing incidents, response times, and follow-up actions in a searchable operational view; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 4 endpoints and resolved edge-case failures discovered in peer testing.
