PROFESSIONAL SUMMARY

Experienced python developer with 6 years of experience in marketplaces environments. Works across Python, Django and REST APIs, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | Django | REST APIs | PostgreSQL | Docker | Git | Unit Testing | AWS

PROFESSIONAL EXPERIENCE

Python Developer | Beryl Techworks
2023 - Present | Benin City, Nigeria

- Built service endpoints to support marketplaces workflows and collaborated with product and QA teams on edge cases.
- Refined caching and background-job processing for peak transaction periods; reduced repeated database reads in test workloads.
- Implemented structured exception reporting and release checklists, reducing untriaged defects in the sprint backlog.
- Measured a 19% improvement in an internal vendor onboarding response-time benchmark after revising data access and request handling.

Software Developer | Jadeleaf Technologies
2020 - 2023 | Nigeria

- Reviewed pull requests, clarified acceptance criteria, and mentored junior contributors on test-first delivery.
- Consolidated duplicate business-logic modules into shared components and reduced maintenance effort across three endpoints.
- Investigated production error reports and shipped fixes with rollback notes, monitoring checks, and incident summaries.

SELECTED PROJECTS

Delivery Status Service | 2026

- Implemented a Python service layer for synchronizing status events between dispatch and customer support; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 7 endpoints and resolved edge-case failures discovered in peer testing.

Transport Route Planner | 2025

- Implemented a Python service layer for aggregating delivery windows and route-assignment updates; documented payload validation, test cases and error-handling behaviour.
