Olufunke Adekunle

API Engineer

Kaduna, Nigeria | capstone.candidate003@example.com | +234 800 000 0003

PROFESSIONAL SUMMARY

Experienced api engineer with 7 years of experience in distribution environments. Works across Python, Flask and SQLAlchemy, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | Flask | SQLAlchemy | PostgreSQL | Docker | Git | Linux | CI/CD

PROFESSIONAL EXPERIENCE

API Engineer | Oriel Platform Studio

2023 - Present | Kaduna, Nigeria

- Designed database access patterns for stock planning; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.
- Added role-based API guards and request logging for sensitive account actions in the distribution platform.
- Measured a 26% improvement in an internal stock planning response-time benchmark after revising data access and request handling.

Software Developer | Seabrook Computing

2019 - 2023 | Nigeria

- Developed and maintained Python-based services for stock planning, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 32% during an internal performance test.
- Introduced repeatable regression checks for stock planning and improved release handovers with reproducible test evidence.

SELECTED PROJECTS

Vendor Verification Hub | 2026

- Implemented a Python service layer for recording vendor approvals, documents, and outstanding checks; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 10 endpoints and resolved edge-case failures discovered in peer testing.

Quality Assurance Evidence Log | 2025

- Implemented a Python service layer for capturing reproducible test steps and release evidence; documented payload validation, test cases and error-handling behaviour.

EDUCATION

BSc Information Technology | University of Ibadan | 2018

PROFESSIONAL CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)
