Ayo Akinyemi

Senior Backend Developer

Enugu, Nigeria | capstone.candidate005@example.com | +234 800 000 0005

PROFESSIONAL SUMMARY

Experienced senior backend developer with 9 years of experience in media environments. Works across Python, Django REST Framework and PostgreSQL, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | Django REST Framework | PostgreSQL | GitHub Actions | Docker | Testing

PROFESSIONAL EXPERIENCE

Senior Backend Developer | BrightRiver Tech

2023 - Present | Enugu, Nigeria

- Developed and maintained Python-based services for content operations, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 46% during an internal performance test.
- Introduced repeatable regression checks for content operations and improved release handovers with reproducible test evidence.
- Measured a 25% improvement in an internal content operations response-time benchmark after revising data access and request handling.

Software Developer | Everlane Systems

2017 - 2023 | Nigeria

- Designed database access patterns for content operations; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.
- Added role-based API guards and request logging for sensitive account actions in the media platform.

SELECTED PROJECTS

Subscription Account Toolkit | 2026

- Implemented a Python service layer for organizing plan changes, renewals, and lifecycle records; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 8 endpoints and resolved edge-case failures discovered in peer testing.

Feedback Insights Notebook | 2025

- Implemented a Python service layer for summarizing customer feedback and product issues; documented payload validation, test cases and error-handling behaviour.

EDUCATION

BSc Computer Science | Federal University of Technology, Akure | 2016

PROFESSIONAL CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)
