CORE COMPETENCIES

Python | Django | REST APIs | PostgreSQL | Docker | Git | Unit Testing | AWS

PROFESSIONAL EXPERIENCE

Python Developer | Cedarcloud Systems

2024 - Present | Akure, Nigeria

- Designed database access patterns for case management; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.
- Added role-based API guards and request logging for sensitive account actions in the customer service platform.
- Measured a 24% improvement in an internal case management response-time benchmark after revising data access and request handling.

Software Developer | Clearbrook Software

2021 - 2024 | Nigeria

- Developed and maintained Python-based services for case management, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 30% during an internal performance test.

SELECTED PROJECTS

Content Production Tracker | 2026

- Implemented a Python service layer for tracking briefs, review cycles, and publishing status; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 6 endpoints and resolved edge-case failures discovered in peer testing.
