Sadiq Idris

Full-Stack Developer

Abeokuta, Nigeria | capstone.candidate009@example.com | +234 800 000 0009

PROFESSIONAL SUMMARY

Experienced full-stack developer with 7 years of experience in financial services environments. Works across Python, FastAPI and SQL, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | FastAPI | SQL | Docker | Redis | API Security | Git | Cloud Deployment

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Atlaspoint Solutions
2023 - Present | Abeokuta, Nigeria

- Developed and maintained Python-based services for account reconciliation, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 44% during an internal performance test.
- Introduced repeatable regression checks for account reconciliation and improved release handovers with reproducible test evidence.
- Measured a 23% improvement in an internal account reconciliation response-time benchmark after revising data access and request handling.

Software Developer | Oakbridge Innovations
2019 - 2023 | Nigeria

- Designed database access patterns for account reconciliation; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.
- Added role-based API guards and request logging for sensitive account actions in the financial services platform.

SELECTED PROJECTS

Clinic Appointment Workflow | 2026

- Implemented a Python service layer for managing appointment changes and clinician availability rules; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 4 endpoints and resolved edge-case failures discovered in peer testing.

Policy Claims Register | 2025

- Implemented a Python service layer for tracking incoming requests, reviews, and next actions; documented payload validation, test cases and error-handling behaviour.

EDUCATION

BSc Computer Science | University of Lagos | 2018

PROFESSIONAL CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)
