Maryam Ismail

API Engineer

Benin City, Nigeria | capstone.candidate013@example.com | +234 800 000 0013

PROFESSIONAL SUMMARY

Experienced api engineer with 5 years of experience in telecommunications environments. Works across Python, Flask and SQLAlchemy, with emphasis on API design, reliable data workflows and maintainable service integrations. Has contributed to production services, release quality and technical documentation across cross-functional teams.

CORE COMPETENCIES

Python | Flask | SQLAlchemy | PostgreSQL | Docker | Git | Linux | CI/CD

PROFESSIONAL EXPERIENCE

API Engineer | Prismwave Services

2024 - Present | Benin City, Nigeria

- Developed and maintained Python-based services for service assurance, including API request validation and clear error responses.
- Optimized database queries for frequently accessed records, reducing median retrieval time by 42% during an internal performance test.
- Introduced repeatable regression checks for service assurance and improved release handovers with reproducible test evidence.
- Measured a 21% improvement in an internal service assurance response-time benchmark after revising data access and request handling.

Software Developer | Asteron Services

2021 - 2024 | Nigeria

- Designed database access patterns for service assurance; documented expected payloads and failure scenarios for integration partners.
- Contributed to deployment pipelines and environment configuration, reducing manual steps during controlled releases.

SELECTED PROJECTS

Reporting Snapshot Builder | 2026

- Implemented a Python service layer for preparing recurring operational metrics for weekly review; documented payload validation, test cases and error-handling behaviour.
- Prepared integration documentation for 8 endpoints and resolved edge-case failures discovered in peer testing.

EDUCATION

BSc Computer Science | University of Uyo | 2020

PROFESSIONAL CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)
