PROFESSIONAL SUMMARY

Experienced junior software developer with 4 years of experience in telecommunications environments. Works across Python, Flask and SQL, with emphasis on application delivery, technical troubleshooting and workflow improvements. Brings structured task ownership, evidence-based problem solving and careful handoffs to collaborative delivery.

CORE COMPETENCIES

Python | Flask | SQL | Git | REST APIs

PROFESSIONAL EXPERIENCE

Junior Software Developer | Cedarcloud Systems

2024 - Present | Abeokuta, Nigeria

- Developed features for a telecommunications web application, translating tickets into tested Python-based changes.
- Connected frontend forms to server endpoints and validated required fields to prevent incomplete service assurance submissions.
- Maintained data queries and export routines using Flask, with peer review and documented edge cases.
- Completed 8 scoped tickets during a release cycle, including validation, test evidence and implementation notes.

Junior Developer | Seabrook Computing

2022 - 2024 | Nigeria

- Created reusable components for common input patterns and updated technical notes for future maintainers.
- Participated in sprint planning, wrote release notes, and verified assigned acceptance tests before deployment.

SELECTED PROJECTS

Transport Route Planner | 2026

- Built a practical Python-based prototype for aggregating delivery windows and route-assignment updates; documented test cases, assumptions and next-step improvements.
- Reduced manual review effort in a service assurance workflow by approximately 12% during a controlled pilot.
